PREFACE.

THIS volume is in two different senses a supplement to Vol. I., which was issued some twelve years ago. It unites in one alphabetical series :—

1. A purely topographical index, on the same scheme as Vol. I., to all the deeds (*Additional Charters* 27005–45797, *Egerton Charters* 486–621, and the important and early *Stowe Charters*) acquired by the Department from the beginning of 1882 to the end of 1900: thus completing, so far as places in Great Britain and Ireland are concerned, the index to all charters in the Department on the 1st of January, 1901.
2. Entries under *corporate headings*, such as England, Ireland, Scotland, and the various Orders, religious and otherwise, Monasteries and religious houses, and (under London) the College of Arms, City Companies and the like, referring as well to the deeds acquired before 1881, and topographically indexed in Vol. I., as to those acquired from 1882 to 1900. Every reference, therefore, to a Monastery or other corporation in any deed in the Department collections, old or new (Royal, Cotton, Harley, Lansdowne, Sloane, Campbell, Topham, Wolley, Stowe, Additional or Egerton Charters), in the Museum at the beginning of 1901, is to be sought in this second volume.

In addition, the opportunity has been taken to incorporate in the general alphabetical order of Vol. II. the addenda and corrigenda printed at the end of Vol. I., with corrections of such other errors as have since been discovered. As these corrections are not specially noted, a charter will in a few cases be found to be referred to in both volumes and with different dates or identifications. In such cases the entry in Vol. II. is to be taken as a correction. It may also be noted that under the heading of each county in the present index (see also Addenda) has been added a list of wills, and another of “*inquisitiones post mortem*” in that county. These, it is hoped, will prove useful.

A county-index of places is included at the end, as in Vol. I., and is followed by the list of addenda and corrigenda. The table of abbreviations is placed at the beginning.

The indices to foreign places, with those to personal names and a limited index of subjects, remain for the present in manuscript. The full descriptions of the charters also, with the exception of the Stowe Charters, described in the printed *Cat. of Stowe MSS.* (1895), are in manuscript in the Department, and available there to readers on application.

The original index-slips on which this volume is based were the work of the Department generally, but the labour of revision has devolved upon Mr. Henry John Ellis, senior Assistant in the Department, who was also largely responsible for Vol. I. The correction in proof has been superintended by Mr. Jeayes, Assistant Keeper, and Mr. Wood has also given useful aid.

J. P. GILSON.

25 September, 1912.
